PROFESSIONAL SUMMARY

Full-Stack Developer with 4+ years of experience building and shipping scalable web applications from end to end. Proficient across the modern JavaScript ecosystem — Next.js, Node.js/Express, React, and TypeScript — with additional backend experience in Java (Spring Boot) and Python (FastAPI). Hands-on with LLM API integration (OpenAI, Anthropic) and AI-powered product development, bringing practical AI capabilities into real applications. Proven delivery across RESTful APIs, real-time systems (Socket.IO), headless CMS architectures, e-commerce platforms, and cloud-deployed services via Docker and CI/CD pipelines. Collaborative, self-driven, and experienced working across the full development lifecycle in remote-first environments.

PROFESSIONAL EXPERIENCE

Full-Stack Developer | SwaPE IT Solutions

Dec 2023 – Present

- Architected and shipped production web apps using Next.js 14 (App Router), Node.js, and React with fully responsive UIs via Tailwind CSS and Framer Motion animations.
- Led system design decisions and defined scalable architecture patterns across multiple client projects.
- Improved code quality through automated tooling, linting, peer reviews, and performance profiling.
- Integrated third-party services and APIs, reducing development time by establishing reusable integration patterns.

Full-Stack Developer | Raj IT Solutions Ltd.

Nov 2021 – Dec 2023

- Built RESTful APIs with Next.js and Node.js (Express) and implemented real-time features using Socket.IO, serving concurrent users without performance degradation.
- Developed and maintained microservices using Java (Spring Boot), ensuring high availability and horizontal scalability.
- Integrated Strapi headless CMS enabling non-technical stakeholders to manage content without developer intervention.
- Established CI/CD pipelines with Docker, cutting deployment time significantly and reducing production incidents.

Freelance Full-Stack Developer | Independent (Self-Learning & Projects)

Oct 2015 – Present

- Built an AI-powered recipe platform (Next.js, Strapi CMS, Neon/PostgreSQL, ShadCN UI) — letting non-technical users manage content through a headless CMS with a fully responsive UI.
- Delivered e-commerce and booking systems using Node.js, React, and Next.js with Stripe payment integration, role-based access control, and RESTful APIs.
- Designed and optimized PostgreSQL, MongoDB, and MySQL databases for scalable, production-ready applications.

Graphic Designer | Cloudville (Social Managing Company)

Jan 2020 – Oct 2021

- Designed digital assets and social media content; developed strong visual communication and client-facing skills directly applicable to frontend UI work.
